

Introduction

As a Montana VEBA HRA participant, you may choose to have your VEBA funds invested in up to ten different funds. If your objectives change you will have the ability to choose to move some, or all of your VEBA account to other funds as often as monthly. You may choose to have your account in one fund, or allocated in up to all ten funds to equal 100% of your portfolio. To obtain an Account Change Form, contact the plan's Third Party Administrator, REHN & Associates at www.montana.rehnonline.com.

Investment Fund Information

Below is a summary of the fund objectives for the nine available funds in the Montana HRA VEBA Plan. In addition, there is an investment fund overview produced quarterly with history of each fund's performance. You may also view up to date fund fact sheets and prospectuses on each fund's website.

Risk

- Stock, bond and asset allocation funds are not guaranteed and will fluctuate in value on a monthly basis. Benefit withdrawals from these types of funds may be worth more or less than your original deposit.
- Periodically review your selected investment fund choice(s). Should your objectives change, you may want to reevaluate your fund selection(s) and notify the Montana VEBA HRA Third-party Administrator (TPA) of any changes. There is no guarantee of return or loss of any fund and the funds tend to fluctuate with the market. Historically, stock, bond or asset allocation investments tend to be more suitable as longer-term investments.

Advice

- Participants are encouraged to seek advice regarding the investment funds from their personal financial advisor.

Transfers

- If you have multiple funds, benefit withdrawals made from your account will be prorated based on your fund allocation percentage on file with the TPA, unless you request otherwise in writing.

Expenses

- Expenses are calculated as a percent of assets on an annualized basis and are deducted monthly from investment earnings or from participant account balances if no earnings are present.
